

Trail Descriptions and Etiquette

Trails in the West Cuesta Ridge area vary from dirt roads to rocky, technical singletrack. The majority of this coastal chaparral riding area is in the Los Padres National Forest. However, trails also cross through lands owned by the City of San Luis Obispo, the Land Conservancy of SLO County, and California Polytechnic State University. Trail conditions vary widely in each parcel of land, but typically feature abundant singletrack, hairpin turns, shallow water crossings, as well as the occasional small herd of cattle in the lower areas. The upper ridge trails offer panoramic views of the entire county extending to the ocean.

When riding these trails, please be mindful of the etiquette recommended by the International Mountain Bicycling Association (IMBA) and CCCMB:

1. Only ride on open trails.
2. Leave no trace.
3. Ride in control of your bicycle.
4. Always yield trail to others.
5. Never scare animals or people.
6. Plan ahead.

Who We Are

Since 1987, CCCMB has been working to keep local trails open for trail users. CCCMB members have invested thousands of hours of volunteer effort in the repair of trail erosion, as well as in constructing new trails. Additionally, CCCMB actively represents mountain bikers and other trail users in the political arena. Responsible trail use and observation of trail etiquette are of fundamental importance. This helps to ensure continued trail access for all, prevent erosion and reduce user conflict. As always, all who enjoy this land — hikers, runners, equestrians, and cyclists — are invited to join in and help ensure continued access to our public trails.
